GAME NOTES

FC Motagua

3 - 0

Alianza FC (SLV)

Referee
Cristhofer Corado

- This is the first time FC Motagua have won a knockout stage match in which they led at half-time; they previously drew both such matches when leading at the break in the quarter-finals (first legs in 2023 and 2024, excluding play-offs).
- After gaining a numerical advantage seven minutes into the match, FC Motagua capitalised on their superiority by recording their highest possession share in a Concacaf Central American Cup match across the last two editions (68.7%).
- FC Motagua now have the most players to have contributed to a goal (goal or assist) in the 2026 Concacaf Central American Cup, with 12; Oscar Padilla (one goal), Jefryn Macías (one goal), Clever Portillo (one assist) and Jeffry Miranda (one assist) all registered their first goal involvements in the competition today.
- FC Motagua have converted the most crosses into assists in the 2026 Concacaf Central American Cup with four, including the first two goals in today's match against Alianza FC.
- Oscar Padilla scored against Alianza FC with his only shot from inside the box out of three attempts. In fact, FC Motagua have the second-lowest average shot distance in the 2026 Concacaf Central American Cup (16.1 metres).

Sequences are a football metric that quantifies the plays within a team's ball possession.

It begins when a player performs a controlled action with the ball, such as a pass or dribble, and ends at the end of that play, either with a defensive action by the opposing team, a break in play, or a shot.

During a sequence, the participation of each player who performs an action with the ball, whether it is a pass, a dribble or a shot, is recorded. If the sequence culminates in a shot, the player is credited with participating in a shot ending sequence.

This participation may be the shot itself, the pass that led to the shot (chance created) or a previous touch in the build up ..
