GAME NOTES

Referee
Roger Alexander Meléndez Suárez

- CD FAS earned their first points in Concacaf Central American Cup history in their sixth match in the competition; furthermore, they scored four goals in this match, more than they had managed in their previous five matches in the competition combined (three).
- CD FAS are the third team from El Salvador to score four or more goals in a single Concacaf Central American Cup match, following Alianza FC (5-2 against Firpo in 2024) and CD Águila (5-1 against Port Loyola in 2024).
- CD FAS's Juan Vega is just the second player to provide multiple assists in a single match in the 2026 Concacaf Central American Cup, following FC Motagua's Alejandro Reyes against Verdes FC; Vega achieved this feat with his two chances created in the match.
- CD FAS exceeded 2.0 expected goals in a Concacaf Central American Cup match for the first time in their history, recording 2.71 xG against Verdes FC; their previous highest total in the competition was 1.90 xG against Club Olimpia in 2023.
- Luis Ibarra scored Verdes FC's first goal of the 2026 Concacaf Central American Cup just three minutes and 44 seconds after coming off the bench; his 34th-minute strike is the earliest goal by a substitute in the history of the competition.

ATTACKING SEQUENCES INVOLVEMENTS

- Shot
- Chance Created
- Build Up to Shot

Sequences are a football metric that quantifies the plays within a team's ball possession.

It begins when a player performs a controlled action with the ball, such as a pass or dribble, and ends at the end of that play, either with a defensive action by the opposing team, a break in play, or a shot.

During a sequence, the participation of each player who performs an action with the ball, whether it is a pass, a dribble or a shot, is recorded. If the sequence culminates in a shot, the player is credited with participating in a shot ending sequence.

This participation may be the shot itself, the pass that led to the shot (chance created) or a previous touch in the build up ..
