CD Marathón

Referee
Cesar Nolasco

- CD Marathón are unbeaten in their last four Concacaf Central American Cup matches (W3 D1), having lost their first two games in the competition. They have also kept a clean sheet in each of those four matches.
- Nicolás Messiniti has become the first CD Marathón player to both score and assist in a single Concacaf Central American Cup match. The Argentine had previously netted in continental competition, having scored for Delfín in the 2024 CONMEBOL Sudamericana.
- CD Marathón have scored two or more goals in a Concacaf Central American Cup match for the first time; they had netted just four goals across their previous five games in the competition (W2 D1 L2).
- CD Marathón goalkeeper Jonathan Rougier has kept a clean sheet in the 2026 Concacaf Central American Cup, making five saves and preventing 0.24 goals so far in the competition; his defence has been instrumental, with only five of the 29 total shots conceded by the team hitting the target.
- Yairo Moreno scored CD Marathón's second goal against Antigua GFC; the Colombian has accounted for five of his team's seven shots on target in the 2026 Concacaf Central American Cup.

ATTACKING SEQUENCES INVOLVEMENTS

Shot
Chance Created
Build Up to Shot

Sequences are a football metric that quantifies the plays within a team's ball possession.

It begins when a player performs a controlled action with the ball, such as a pass or dribble, and ends at the end of that play, either with a defensive action by the opposing team, a break in play, or a shot.

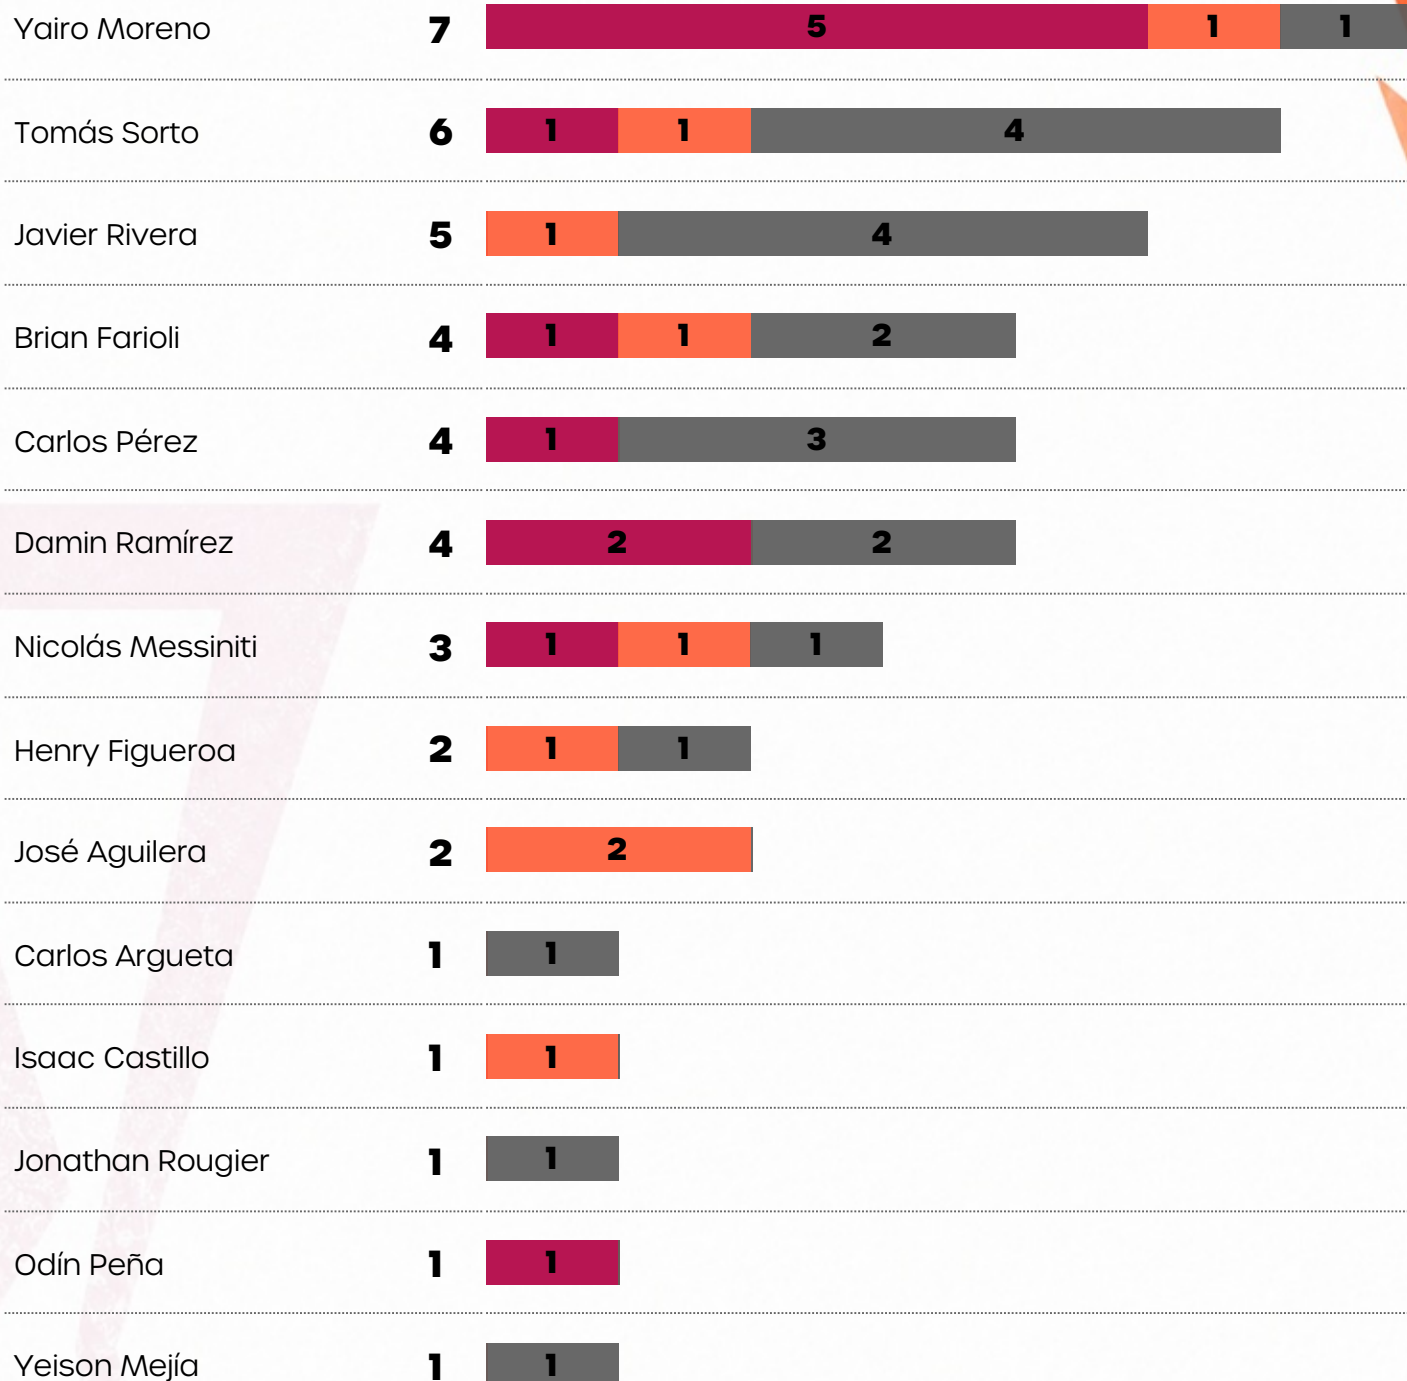

During a sequence, the participation of each player who performs an action with the ball, whether it is a pass, a dribble or a shot, is recorded. If the sequence culminates in a shot, the player is credited with participating in a shot ending sequence.

This participation may be the shot itself, the pass that led to the shot (chance created) or a previous touch in the build up ..
