GAME NOTES

Alianza San Salvador

1 - 0

Herediano

Referee

Fernando Javier Moron Valdelamar

- Alianza have won consecutive matches for the first time in the Concacaf Central American Cup; they have now secured as many victories in this current run as they managed in their previous eight games in the competition (W2 D1 L5).
- Herediano have enjoyed more possession than their opponents in each of their last five Concacaf Central American Cup matches, including 65% in their latest outing; however, they have failed to win any of those games during this run (D2 L3).
- David León's goal for Alianza FC was their only shot on target in the second half; after the goal, Herediano registered 70% possession and four shots on target, without conceding any to their opponent.
- Herediano's Getsel Montes is the first player to complete 80+ passes in the current edition of the Concacaf Central American Cup (92 attempted).
- Keyner Brown had Herediano's highest expected goals shot (0.22 xG) from a corner kick; he also won seven of his eight aerial duels, the most of any player in the match.

ATTACKING SEQUENCES INVOLVEMENTS

- Shot
- Chance Created
- Build Up to Shot

Sequences are a football metric that quantifies the plays within a team's ball possession.

It begins when a player performs a controlled action with the ball, such as a pass or dribble, and ends at the end of that play, either with a defensive action by the opposing team, a break in play, or a shot.

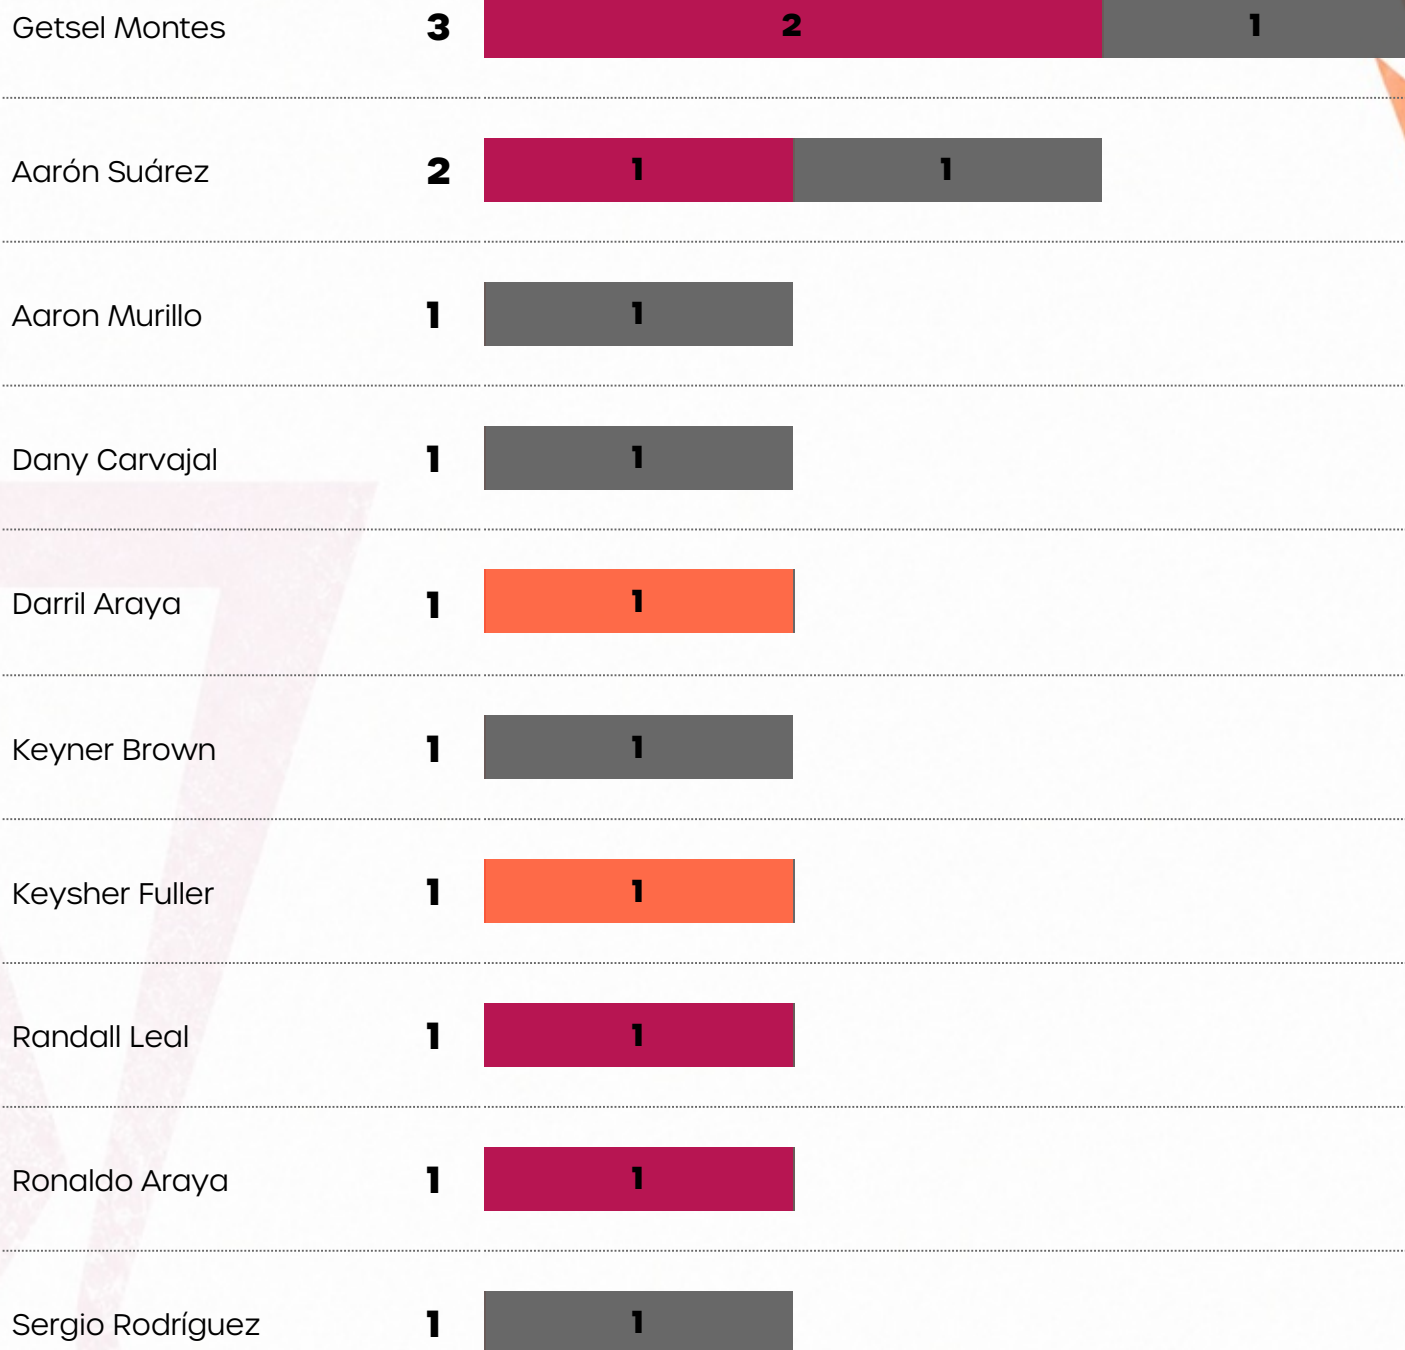

During a sequence, the participation of each player who performs an action with the ball, whether it is a pass, a dribble or a shot, is recorded. If the sequence culminates in a shot, the player is credited with participating in a shot ending sequence.

This participation may be the shot itself, the pass that led to the shot (chance created) or a previous touch in the build up ..
