GAME NOTES

CD Marathón

2 - 2

LD Alajuelense

Referee
Jaime Alfredo Herrera

- *This is the first time Marathón has picked up a point in a Concacaf Central American Cup match in which they started trailing, having lost their previous two matches.*
- *Anthony Hernández's goal after just one minute and a half was Alajuelense's earliest ever in the Concacaf Central American Cup, and the earliest overall in the 2026 edition of the competition.*
- *Marathón's Yairo Moreno has scored three goals in five Concacaf Central American Cup matches this season from an expected goals value of 0.91 xG. His goal difference (+2.09) is the third-best in the competition.*
- *Marathón's Yairo Moreno became the third player for the club to score and assist in a single Concacaf Central American Cup 2026 match, after Brian Farioli and Nicolás Messinti; no other team has had more than two players achieve this feat in this edition.*
- *Alajuelense generated almost the same amount of expected goals from five shots (0.86 xG) as Marathón did from 17 shots (0.95 xG) in the Concacaf Central American Cup.*

ATTACKING SEQUENCES INVOLVEMENTS

Shot
Chance Created
Build Up to Shot

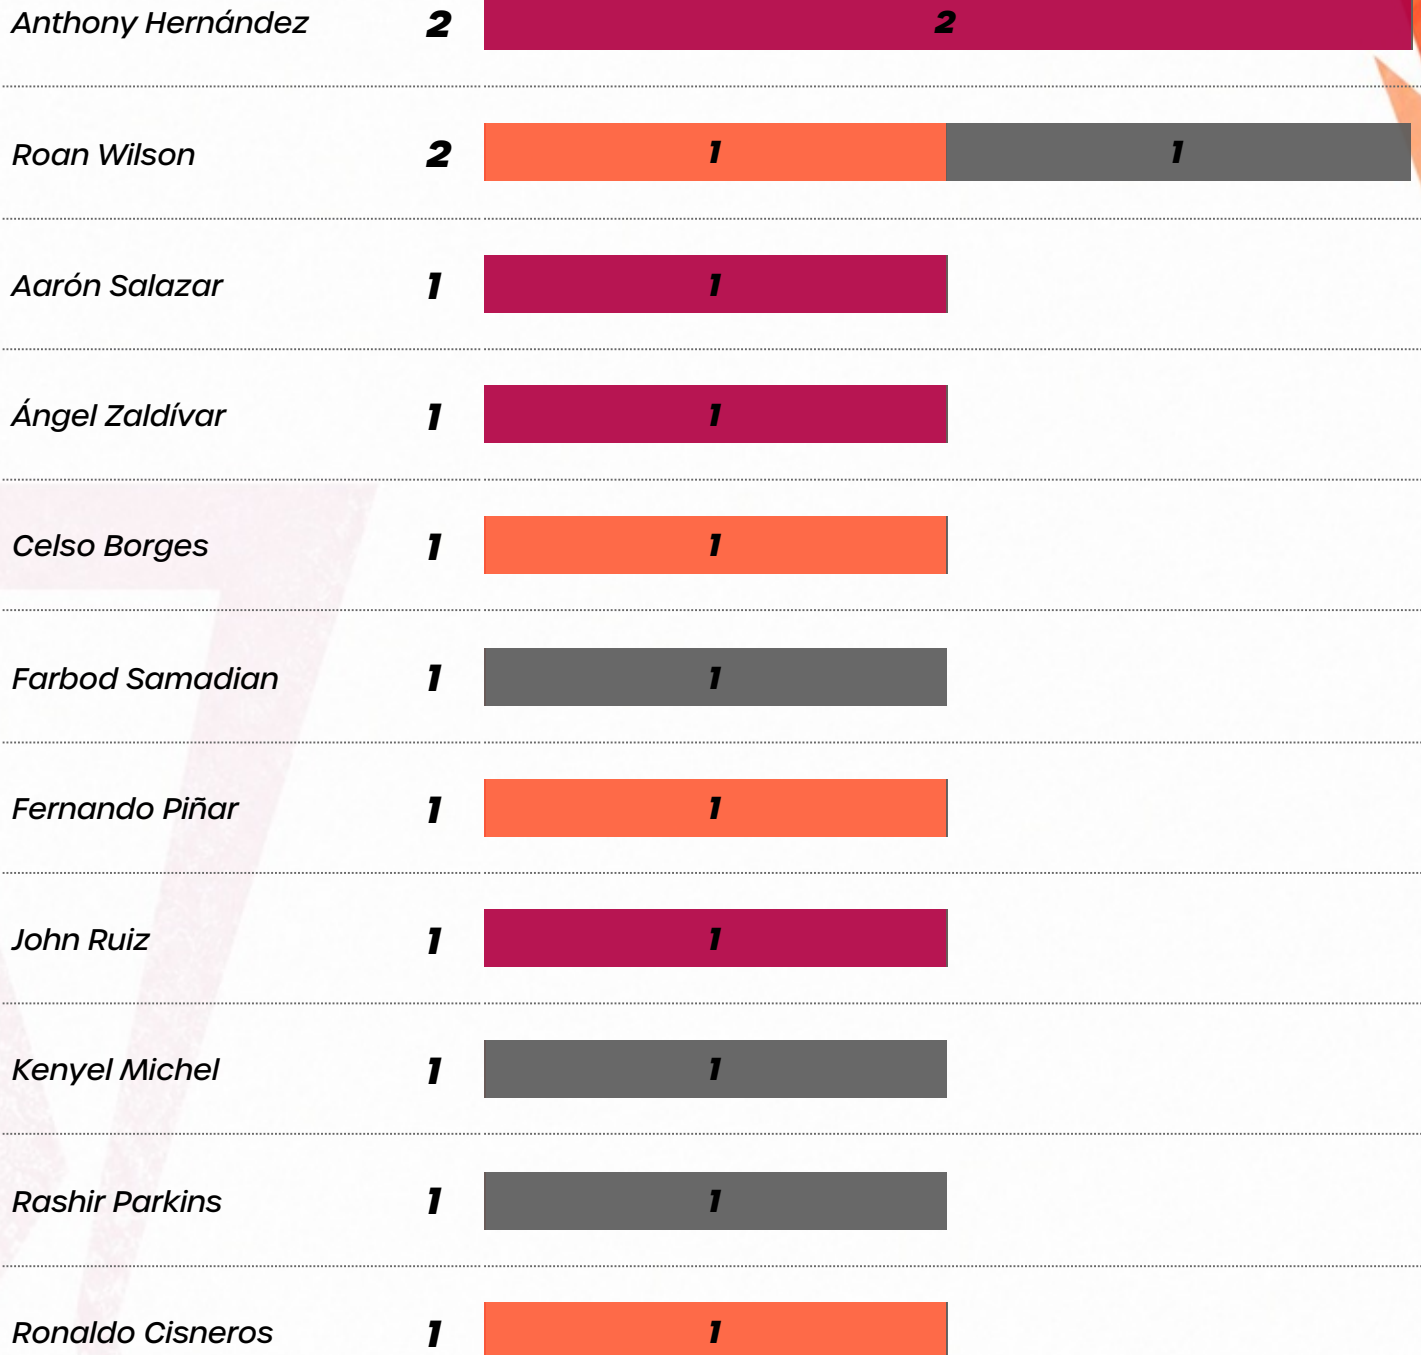

Sequences are a football metric that quantifies the plays within a team's ball possession. It begins when a player performs a controlled action with the ball, such as a pass or dribble, and ends at the end of that play, either with a defensive action by the opposing team, a break in play, or a shot. During a sequence, the participation of each player who performs an action with the ball, whether it is a pass, a dribble or a shot, is recorded. If the sequence culminates in a shot, the player is credited with participating in a shot ending sequence. This participation may be the shot itself, the pass that led to the shot (chance created) or a previous touch in the build ..
