GAME NOTES

Mount Pleasant FA

1 - 0

Cavalier

Referee
Ricangel de Leça

- Mount Pleasant have qualified for the Concacaf Caribbean Cup semi-finals for the second time (2025 and 2026), equalling the best Jamaican record for appearances at this stage, set by Cavalier SC, who participated in the final knockout rounds in 2023 and 2024.
- Mount Pleasant's Nickalia Fuller scored her second goal in the 2026 Concacaf Caribbean Cup, making her the team's top scorer in the tournament. She is just one goal away from equalling the most goals scored by a Jamaican team player in a single edition (three, by Raheem Edwards in 2025).
- Mount Pleasant Academy's Nickalia Fuller (21 years, 276 days) led his team in shots against Cavalier FC (six), accounting for 54.5% of his team's attempts in the Concacaf Caribbean Cup match, and with his goal, he became the second-youngest player to score two goals in the competition across the last two editions, after Daryl Massicot (20 years, 232 days).
- Mount Pleasant Academy recorded their highest possession figure in a Concacaf Caribbean Cup 2026 match, the third-highest overall in the competition (67.3%), and the first time this season they have managed to exceed 60%.
- Akwasy Tekyi became the first African player to feature for Cavalier FC in the Concacaf Caribbean Cup, and the first overall in the competition since Opta has on record data for the tournament (since 2025).

ATTACKING SEQUENCES INVOLVEMENTS

- Shot
- Chance Created
- Build Up to Shot

Sequences are a football metric that quantifies the plays within a team's ball possession.

It begins when a player performs a controlled action with the ball, such as a pass or dribble, and ends at the end of that play, either with a defensive action by the opposing team, a break in play, or a shot.

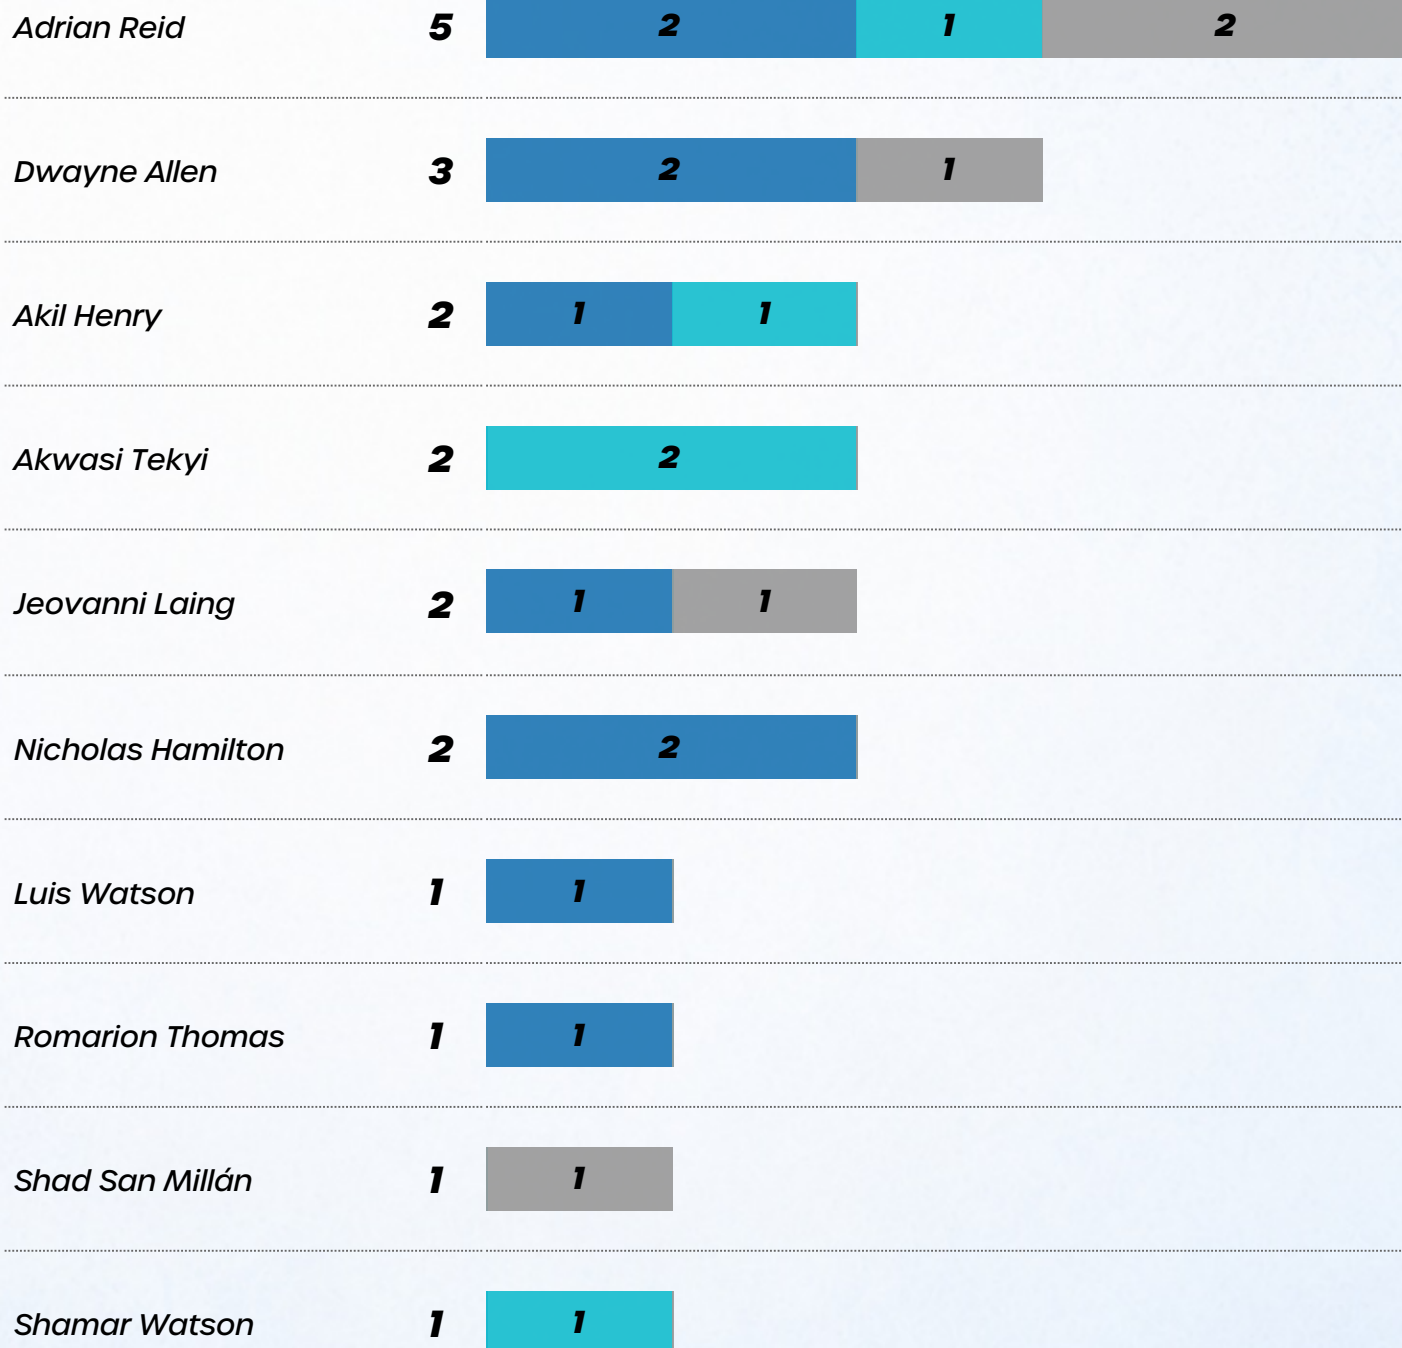

During a sequence, the participation of each player who performs an action with the ball, whether it is a pass, a dribble or a shot, is recorded. If the sequence culminates in a shot, the player is credited with participating in a shot ending sequence.

This participation may be the shot itself, the pass that led to the shot (chance created) or a previous touch in the build ..
