GAME NOTES

Referee
Diego Ojer

- Saprissa are now unbeaten in their last four home matches in the Concacaf Central American Cup (W3 D1); they have scored seven goals and conceded just two during this run.
- Newton Williams registered his first assist in the Concacaf Central American Cup for Deportivo Saprissa; the Panamanian had previously provided a goal assist in another continental competition, the CONMEBOL Sudamericana, in 2022 playing for 9 de Octubre against Delfín.
- Deportivo Saprissa have recorded their second consecutive win against Panamanian opponents in the Concacaf Central American Cup (UMECIT and Alianza FC Panama). They had failed to win against teams from Panama in their previous two matches in the competition (D1 L1).
- Saprissa's Orlando Sinclair has been involved in four goals in his last five Concacaf Central American Cup matches (three goals, one assist), with his goal against Alianza.
- Saprissa's Mariano Torres has scored two goals in his two appearances in the Concacaf Central American Cup this season; the Argentine has also had the most shots for his team in the competition (6). This is an improvement on the 2025 edition, where he failed to score and only had one shot in two games.

ATTACKING SEQUENCES INVOLVEMENTS

■ Shot
■ Chance Created
■ Build Up to Shot

Sequences are a football metric that quantifies the plays within a team's ball possession.

It begins when a player performs a controlled action with the ball, such as a pass or dribble, and ends at the end of that play, either with a defensive action by the opposing team, a break in play, or a shot.

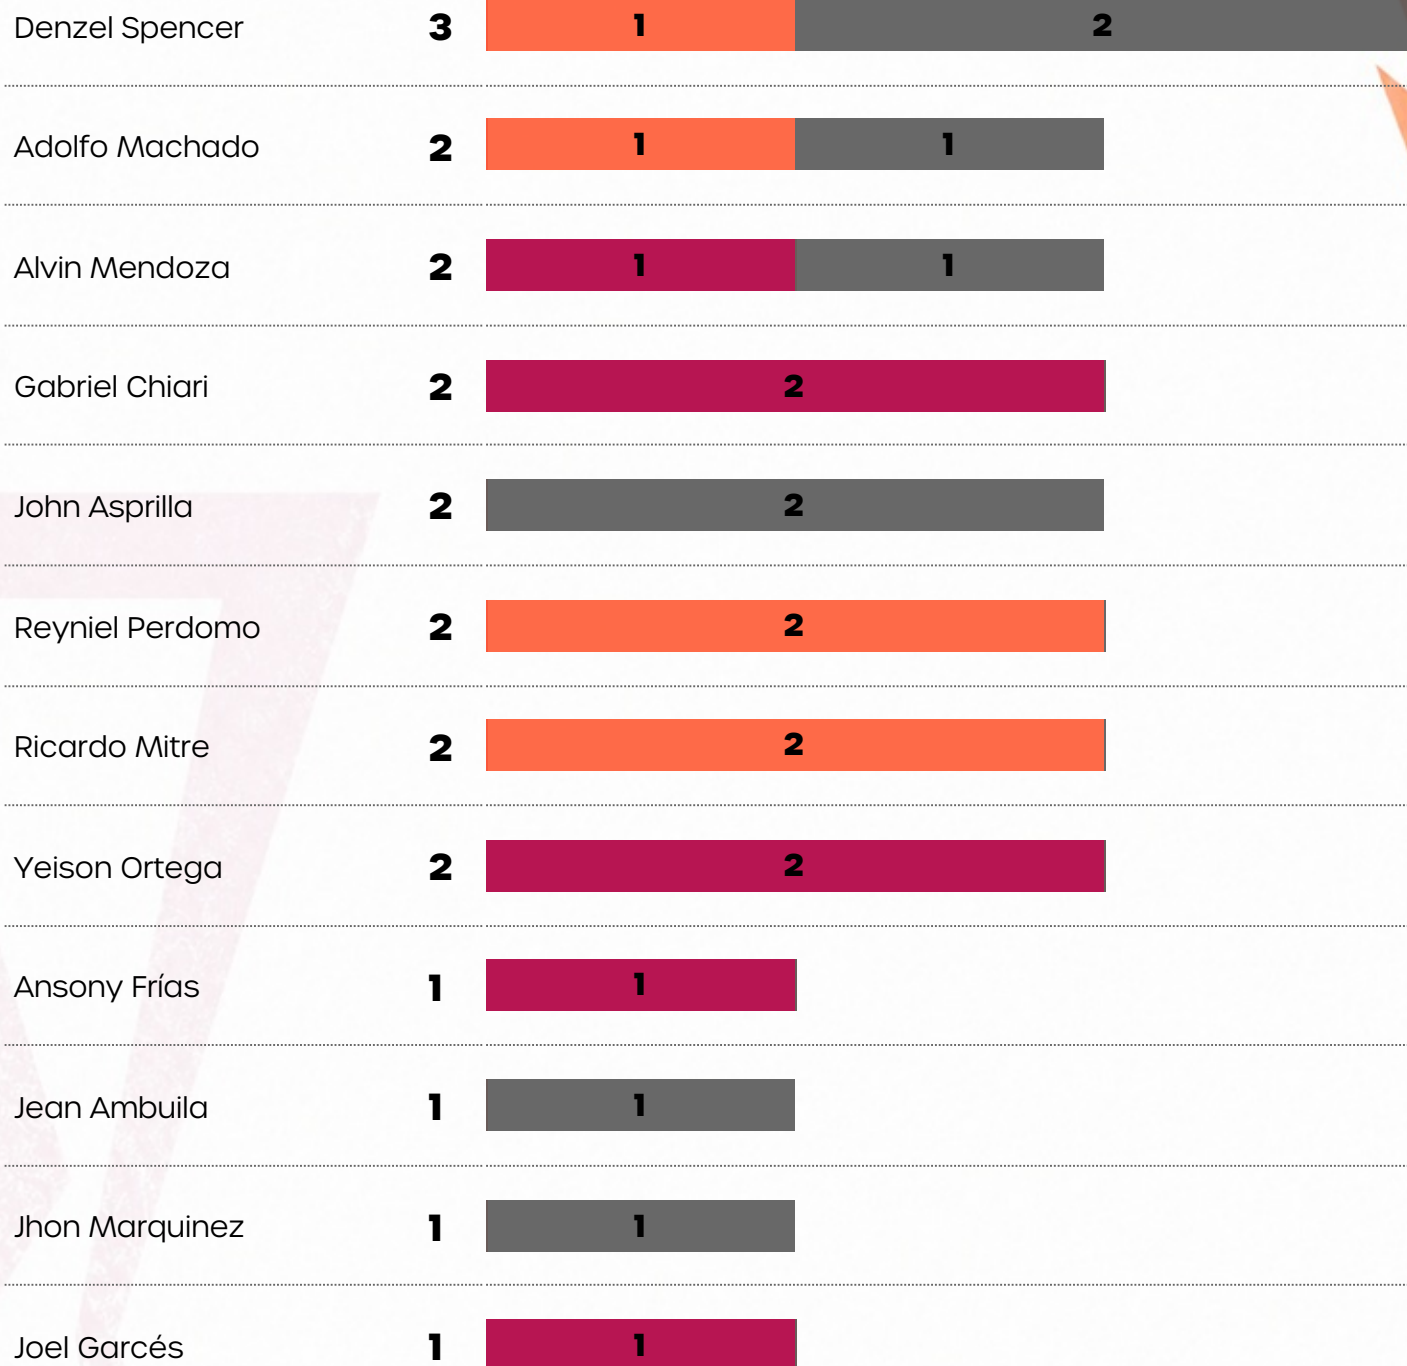

During a sequence, the participation of each player who performs an action with the ball, whether it is a pass, a dribble or a shot, is recorded. If the sequence culminates in a shot, the player is credited with participating in a shot ending sequence.

This participation may be the shot itself, the pass that led to the shot (chance created) or a previous touch in the build up ..
