Club Olimpia	2	2	CS Cartaginés

Concacaf CENTRAL AMERICAN CUP

GAME NOTES

Club Olimpia **2 - 2** **CS Cartaginés**

Referee
Adonis Carrasco

• CS Cartaginés are the second Costa Rican team to reach the Concacaf Central American Cup final, following LD Alajuelense; Costa Rica is the only country to have had two different teams participate in the final.

• CS Cartaginés' Alonso Hernández became the second player to score in both legs of a Concacaf Central American Cup semi-final tie, after LD Alajuelense's Anthony Hernández, who also achieved this against Club Olimpia in 2025.

• Jorge Benguché scored his 16th Concacaf Central American Cup goal, his fourth against CS Cartaginés – the opponent he has scored against most often in the competition. It was also his second semi-final goal, following his strike at home against LD Alajuelense in 2025.

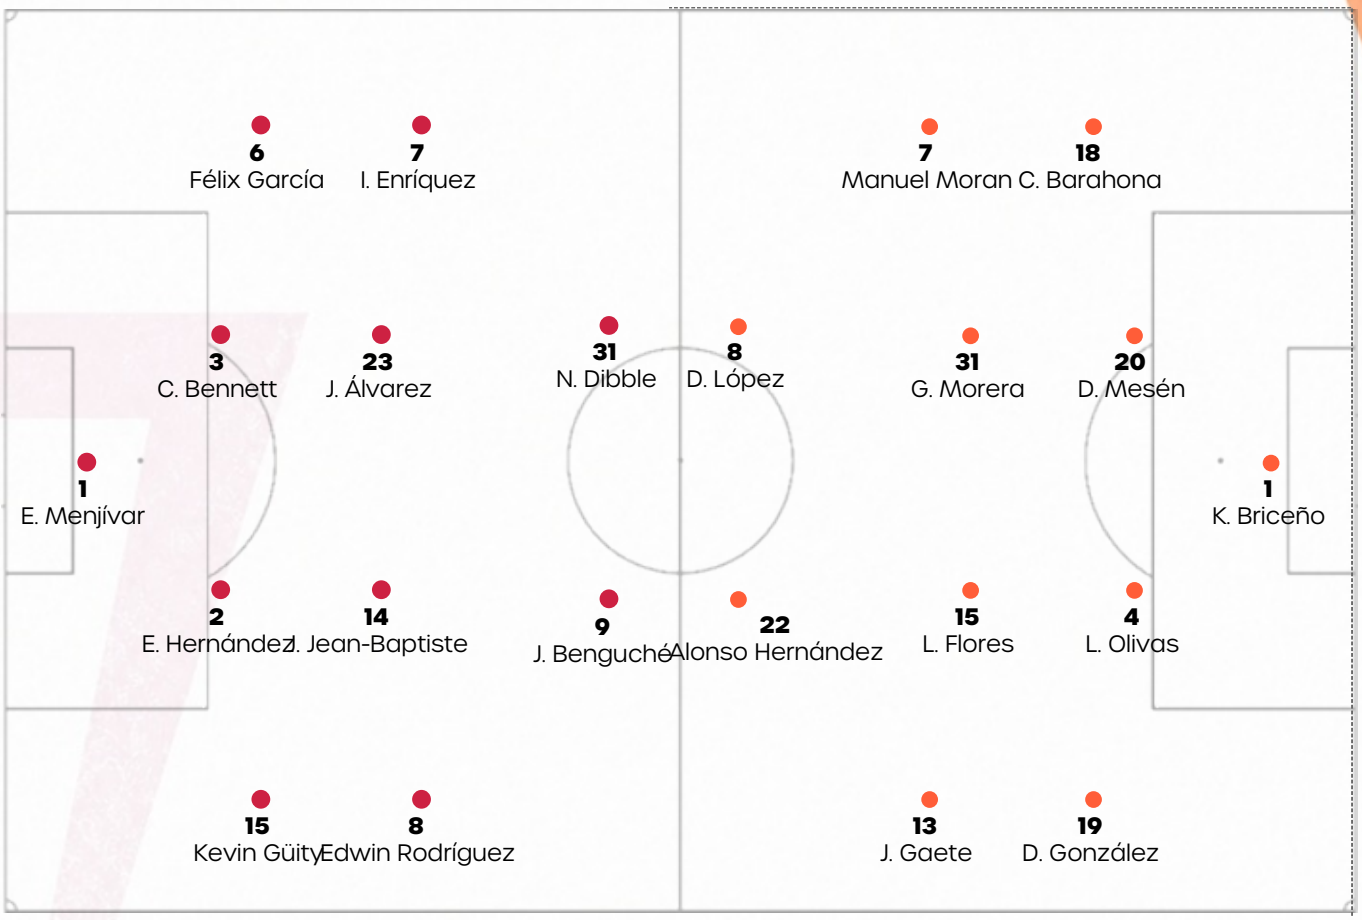

• Club Olimpia's goal at 11 minutes and 22 seconds was their earliest in the 2026 Concacaf Central American Cup and the fourth-earliest in the history of the competition's semi-finals.

• Club Olimpia recorded 19 shots, their second-highest total in a 2026 Concacaf Central American Cup match after their 21 shots against UMECIT FC; meanwhile, CS Cartaginés scored two goals from five shots, matching the exact figures they recorded away to Saprissa in the quarter-finals.

Sequences are a football metric that quantifies the plays within a team's ball possession.
It begins when a player performs a controlled action with the ball, such as a pass or dribble, and ends at the end of that play, either with a defensive action by the opposing team, a break in play, or a shot.
During a sequence, the participation of each player who performs an action with the ball, whether it is a pass, a dribble or a shot, is recorded. If the sequence culminates in a shot, the player is credited with participating in a shot ending sequence.
This participation may be the shot itself, the pass that led to the shot (chance created) or a previous touch in the build up ..
