GAME NOTES

UMECIT

1 - 2

Deportivo Saprissa

Referee
Raúl Castro

Saprissa is the first team in this edition of the CONCACAF Central American Cup to win a match despite receiving a red card. In the 2025 edition of the tournament, this didn't happen until the third matchday of the group stage, when Municipal defeated Real España 2-1.

Saprissa has won all of its opening away matches in a Concacaf Central American Cup tournament. However, it has managed to keep a clean sheet in only one of those matches: a 4-0 victory over Jocoro in 2023.

Alberto Saldaña (UMECIT) scored from a pass from Erick Rodríguez, with both coming on as substitutes. The last time this combination of scorer and assist provider where both entered the game as substitutes in a CONCACAF Central American Cup match occurred was in Sporting SM's 3-2 win over Plaza Amador in 2025, when Joseph Cox assisted Jordan Girón.

Kendall Waston (Saprissa) was directly involved in a goal in the Central American Cup for the first time since November 2023, when he scored against Motagua in a 4-0 victory. Today against UMECIT, he assisted on Orlando Sinclair's goal.

At 39 years and 71 days old, Mariano Torres (Saprissa) is the oldest player to score in this CONCACAF Central American Cup so far.

UMECIT's Jesús Delgado is the first player in this CONCACAF Central American Cup to contest at least five aerial duels and have a 100% success rate in those duels (5/5).

ATTACKING SEQUENCES INVOLVEMENTS

Shot
Chance Created
Build Up to Shot

Sequences are a football metric that quantifies the plays within a team's ball possession.

It begins when a player performs a controlled action with the ball, such as a pass or dribble, and ends at the end of that play, either with a defensive action by the opposing team, a break in play, or a shot.

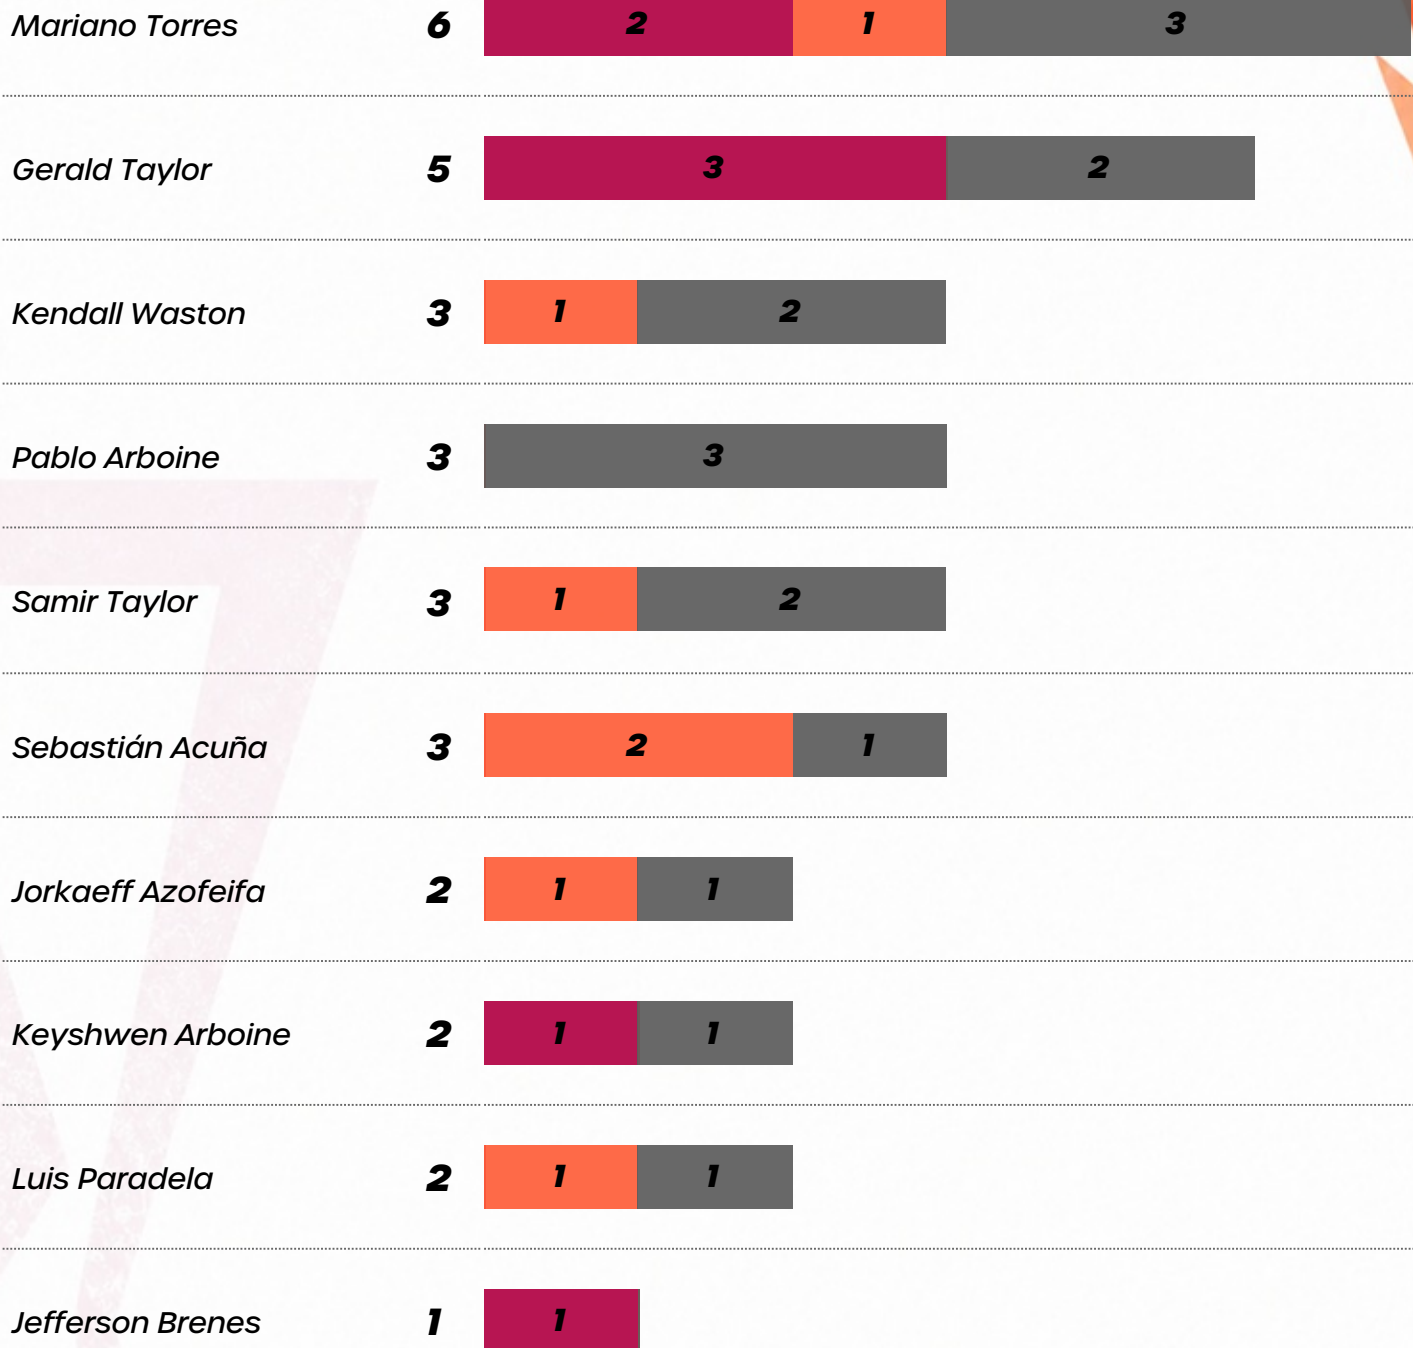

During a sequence, the participation of each player who performs an action with the ball, whether it is a pass, a dribble or a shot, is recorded. If the sequence culminates in a shot, the player is credited with participating in a shot ending sequence.

This participation may be the shot itself, the pass that led to the shot (chance created) or a previous touch in the build ..

Sequences are a football metric that quantifies the plays within a team's ball possession.

It begins when a player performs a controlled action with the ball, such as a pass or dribble, and ends at the end of that play, either with a defensive action by the opposing team, a break in play, or a shot.

During a sequence, the participation of each player who performs an action with the ball, whether it is a pass, a dribble or a shot, is recorded. If the sequence culminates in a shot, the player is credited with participating in a shot ending sequence.

This participation may be the shot itself, the pass that led to the shot (chance created) or a previous touch in the build ..

SEQUENCES INVOLVEMENTS & xG CHAIN

Open Play Sequence Involvement The number of unique open play sequences that a player was involved in.
(Note: these are unique because multiple involvements in a single sequence will only count as one involvement).

xG Sequence Involvement (xG Chain) The total xG value of unique open play shot or goal ending sequences that a player was involved in.
